ITEM #6 Supervisor Updates

Supervisor Corcoran stated that the Board will still take comments with regard to the public hearing.

The community center is coming along. He would like to invite the original committee to take a tour when it is complete and before it is open to the public.

The walkway that was built that goes down to the Train Station was washed out in one of the recent rain storms. The insurance company looked at it and the engineer will need to as well. It looks like the steps will need to be replaced.

There was a trip out to Old Indian Trail with GPI Engineering who will work up estimates for the options for keeping and making the road a dead end and also a two-way (north and south) road. The property owner to the north will not give an easement.

GPI Engineering is also working on the Highway Department building reconstruction bid which is planned for March. There is money in the budget for the construction.

He has been in contact with Senator Hinchey's office and Assemblyman Jacobsen about help with getting permission from the Department of Transportation and for funding for turning lanes on Route 9W. Specifically for Young's Field.
