Hi Patti,

See attached map with the approximate wetland boundary. This line was a little hard to follow, I made the following notes:

- A12-A14 follows the stream (I walked through the stream to hang these flags)
- I added a flag A14a between A14 and A15.
- A15 probably isn't located directly on the property line, but the wetland boundary can be extended from this flag to the property boundary. There was thick veg along the roadside that I didn't want to put the flag or else it may be hidden from the survey crew.

The three smaller informational wetlands to the north/northwest are separated by topography and are not hydrologically connected to the previously mapped wetland.

Best,
Paige

Okay great, I will plan to get to the site in the afternoon – probably around 2:30 or 3pm. FYI for the landowner – I'll be in my personal vehicle (a blue Honda fit).

Thanks,
Paige
